The Recreational Precinct offers facilities for community and sporting clubs, community recreation and the hosting of annual events. These modern showgrounds offer a multi-purpose facility allowing year round low key activity, coupled with periodic larger annual events. The existing Agrotrend site already had much of the infrastructure necessary to host elements of a Show, such as powered sites, canteens, pavilions, grassed parking, lighting, public announcement systems and public amenities. With the financial assistance of the Australian Government's Regional Development Australia Fund, Council developed new recreational and sporting infrastructure including new pavilions, stable roofed structures, roofed arena structure with dressage surface, shower building, site stormwater enhancements, extended access roads, facility fencing, loading ramps, storage sheds, electrical supplies, water services and sewerage realignments. See Map on page 2
